

notificationssystem.controller.
Controller.getConfirmCode

notificationssystem.controller.
Controller.getReport

```
graph LR; A["notificationssystem.controller.  
Controller.getConfirmCode"] --> D["send"]; B["notificationssystem.controller.  
Controller.getReport"] --> D;
```

send

The diagram illustrates a mapping from two controller methods to a single 'send' action. Two white rectangular boxes on the left contain the method names: 'notificationssystem.controller.Controller.getConfirmCode' and 'notificationssystem.controller.Controller.getReport'. Blue arrows point from the right side of each box to a gray rectangular box on the right labeled 'send'.
